Re: Transfer of PM10 emission reduction credits  
Minor Source Modification No.: 089-13662-00316

Dear Mr. Carson:

On December 27, 2000, a letter requesting the transfer of ownership of PM10 emission reduction credits was received from Ispat Inland Inc., East Chicago, Indiana. Ispat Inland, Inc. has PM10 emission reduction credits banked. The reductions were made by the shutdown of operations at the No. 4 AC station that occurred during November 1998. They have requested the transfer of ownership of 225 tons of PM10 emission reduction credits to Primary Energy Inc., Merrillville, Indiana. These emission reduction credits are allowed to be used under the preconstruction review program because these emissions have not been relied upon in the control strategy submitted to EPA to demonstrate attainment and maintenance of ambient air quality standards. In accordance with 326 IAC 2-3-4, these emission reduction credits are valid:

- (a) As long as the credits are relied upon by the end of November 2003, plus time for construction;
- (b) Does not interfere with the attainment and maintenance of ambient air quality standards; and
- (c) Does not violate any other condition set forth in 326 IAC 2-3.

This transfer of the PM10 emissions will be incorporated into the pending Part 70 permit application T089-6577-00316, pursuant to 326 IAC 2-7-10.5(l)(3).

This decision is subject to the Indiana Administrative Orders and Procedures Act - IC 4-21.5-3-5. If you have any questions on this matter call (800) 451-6027, press 0 and ask for Teresa Freeman or ask for extension 4-1243, or dial (317) 234-1243.

Sincerely,

Paul Dubenetzky, Chief  
Permits Branch  
Office of Air Quality

County:	Lake
Minor Source Modification:	089-13662-00316
SIC Code:	3312
Permit Reviewer:	Teresa Freeman

On December 27, 2000, a letter was received from Ispat Inland Inc., East Chicago, Indiana, requesting the transfer of PM10 emission reduction credits (ERCs) to Primary Energy, Merrillville, Indiana. The reductions were made available by the shutdown of operations at the No. 4 AC station that occurred during November, 1998, as required by CP 089-9236-00316 issued to Indiana Harbor Coke Company on February 26, 1998. Primary Energy, Inc. will be purchasing 225 tons of PM10 emission credits for future use.

The transfer of the 225 tons of PM10 emission reduction credits from Ispat Inland, Inc. to Primary Energy, Inc. is reflected in Minor Source Modification 089-13662-00316 issued to Ispat Inland, Inc. The transfer is also documented in Review Request 089-13903-00462 to be issued to Primary Energy, Inc.
